

One hyper-connected world. One customer-driven network.

ExtremeApplications™

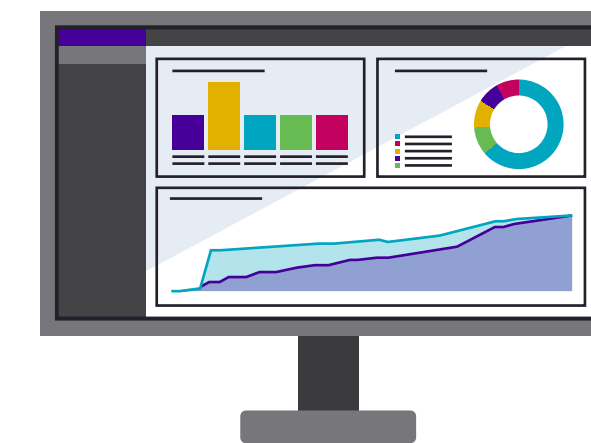

Gain Actionable Insights, Visibility, and Control with Advanced Security and Superior Quality of User Experience

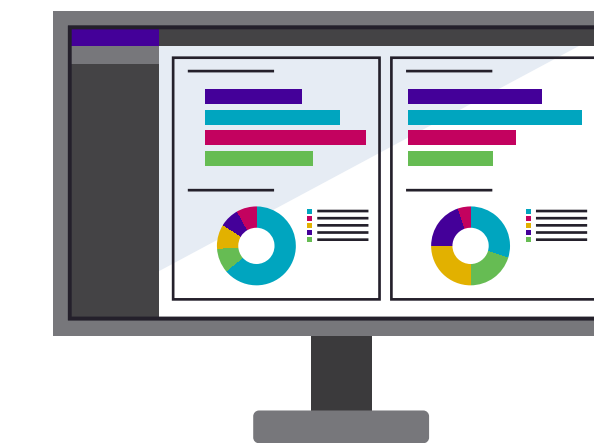

Extreme AirDefense®
A Comprehensive Wireless Intrusion Prevention System

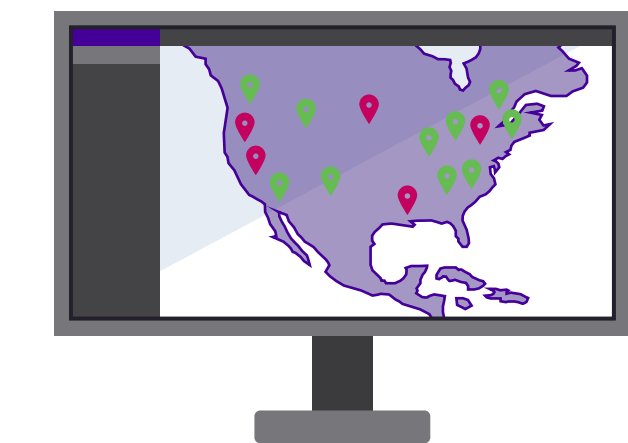

ExtremeCloud™
Simple and Secure Network Management, At Your Fingertips

Defender for IoT
Secure Connections for IoT Devices that Lack Embedded Security

ExtremeGuest™
A Robust and Comprehensive Guest Engagement Solution

ExtremeLocation™
Engage Your Customers with Scalable, Multi-tier Indoor Location Services

Extreme Management Center™

A better way to manage your network from the network edge to the data center to the cloud.

The Extreme Management Center Suite is comprised of five ExtremeApplications: ExtremeAnalytics, ExtremeControl, ExtremeManagement, ExtremeConnect, and ExtremeCompliance.

ExtremeAnalytics™
Actionable Business Insights Through Granular Visibility into Your Apps

ExtremeControl™
Granular Policy Control and In-Depth End-Point Visibility

ExtremeManagement™
360 Degrees of Visibility and Control Across Your Entire Network

ExtremeConnect™
Automate Day-to-Day Operations with Integrations from Third-Party Services

ExtremeCompliance™
Automated Network Configuration Compliance Solution

ExtremeSwitching™

Network Switching Products from Edge to Core, the Foundation of a Next-Generation Network

ExtremeXOS
Edge Switches

ERS Series
Edge Switches

VSP Series
Campus Switches

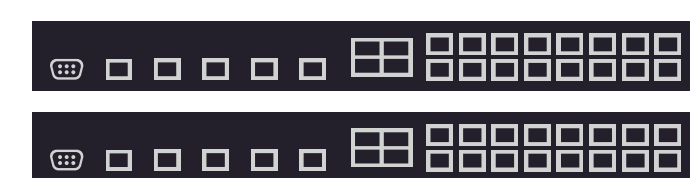

SLX Series
Data Center Switches

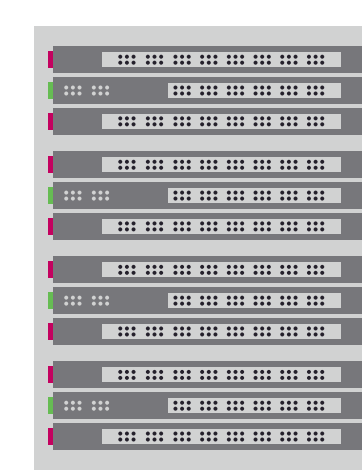

VDX Series
Data Center Switches

ExtremeRouting™

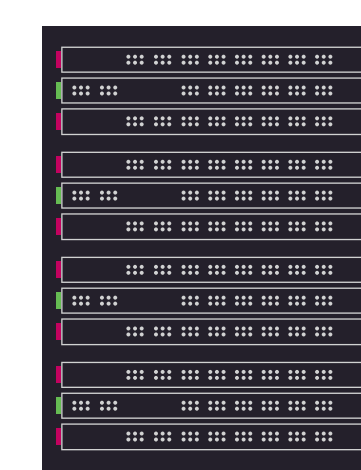

Lightning Speed and Scalable Routers Ideal for Enterprise, Data Center, and Service Providers

CER Series
Compact Multi-Service Carrier Ethernet Routers

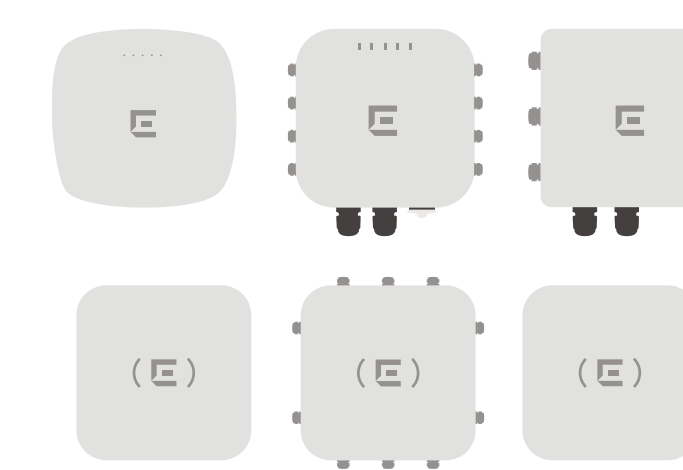

SLX Series
High-Density Routers for Demanding Data Centers

MLX Series
Multiservice IP/MPLS SDN Routers

ExtremeMobility™

Wireless Infrastructure that Makes the Customer-Driven Network a “Wi-Not” Reality

Wi-Fi 5 and Wi-Fi 6
Enterprise-Grade, AI-Assisted APs for Campus and Distributed Deployments

ExtremeCloud™ Appliance
Wired and Wireless Orchestration for Campus, Private Cloud, and IoT
